MUST ABOLISH DISTINCTION

Methodists Declare Themselves Absolutely Opposed to Any Monopolization of Power

Cleveland, June 28.—Delegates to the jubilee convention of the joint centenary committee of the Methodist Episcopal Church, Wednesday night declared that power, whether political, economical, or industrial, must not be monopolized by one class to the detriment of the other, and that class distinction must be abolished.

Resolutions were adopted stating that much of the present social unrest is due to conditions which had existed previously, but were not recognized until demonstrated by the war.

A cablegram requesting that wartime prohibition be enforced until all American soldiers were demobilized was sent to President Wilson. Similar messages were sent to the presiding officers of Congress.

The 600 delegates left today to visit the Methodist exposition at Columbus.

MORRIS CASE NEARS END

Defense In Closing Fails to Utilize Draft Board Findings

Charlottesville, Va., June 28.—Yesterday saw the wind up of direct evidence for the defense in the trial of Edgar Morris for shooting Magistrate Bluford G. Sullivan at Standardsville last March. Tomorrow the prosecution will proceed to introduce rebuttal evidence and present indications are that conclusion of the case will be reached by Tuesday.

The feature of yesterday's session was the failure of defense to utilize the findings of the Board of Surgeons at Camp McClellan, Anniston, Ala. Here the accused was given the "Moran test" of mentality last November. Major Hierome L. Opie, of Staunton, his former company commander, was placed on the stand, but was only allowed to testify to the fact that Morris was discharged from the service as "inadaptable" as a soldier. Attorney Hammer tried to get the contents of the report by framing a question which indicated that the finding was that Morris mentally, was determined to be only that of a boy of eight or nine years old, but this was ruled out.

Former Deputy Sheriff George N. Morris, father of the accused, was the last witness of the day. He contradicted a number of witnesses introduced to tell of Sullivan's disposition to use firearms and treatment of the boy, but he did not hesitate materially to contradict the son's version of the actual shooting which tends strongly to throw doubt on his contention of self-defense.

DENY CRIME DECREASE

Georgia Reports Conditions Worse Than Before Prohibition

A communication was received yesterday by the Associated Opposed to National Prohibition, 19 West Forty-fourth street, from one of its members in Marietta, Ga., which shows that although Georgia has been in the prohibition column for a considerable length of time, criminal conditions in Atlanta are admitted by Solicitor General John Boykin to be worse than they even were prior to prohibition.

"The amazing revelation has been made by Solicitor General John Boykin,' says the Marietto correspondent, "that 200 criminal cases have accumulated for investigation by the grand jury in addition to the vast number already acted upon within the last few months and now awaiting trial. The Solicitor General has explained publicly that because of the rapidity with which the criminal cases are piling up, the courts can only take up for the present the heavy and most important ones, meaning felonies, such as murder, burglaries, etc., while the minor ones must be left untouched."

Commenting upon the report of its member from the Georgia city, the Association Apposed to National Prohibition, made this further statement:

"We have similar reports from cities that are dry. We recently quoted the prosecuting attorney of Washington, D. C., and showed that crime conditions in the capital of the nation since it was voted dry have swamped the courts."—(New York Times.

DANIELS REFUSES TO LIFT BAN

Washington, June 28.—In response to urgent requests from the Mayor of Newport, R. I., asking that the Navy's 'dry" zone order applying to all naval training stations, be rescinded before July 1, Secretary Daniels yesterday telegraphed that the order would not be rescinded and that no exceptions would be made in the case of Newport. Mr. Daniels said today that he had received two telegrams from the Newport executice, the last one "very insistent," as the Secretary expressed it, asking that the wartime measure be canceled at once.

Mr. Daniels intimated that the order would not be rescinded until the President officially declared the state of war no longer exists and by that time, Mr. Daniels said, he "hoped that the measure would no longer be necessary."

FIRE AT ACID PLANT THIS MORNING

Firemen Confine Blaze to Laboratory of Establishment

DAMAGE ABOUT $1,000

Crossed Wires May Have Caused Fire—Main Building Saved—Roof of Laoratory Damaged.

Fire of undetermined origin shortly after 2 o'clock this morning partially destroyed the chemical plant of the Alexandria Fertilizer and Chemical Company in the northeastern part of the city. This structure is a frame building two stories high.

The principal damage was to the roof of the building, although some little damage was done to the instruments in the building by water. The total damage will not it is thought exceeded $1.000 and the loss is covered by insurance.

Officials at the plant were unable to explain the cause of the fire, although it is believed by some a crossed wire may have caused the trouble.

The main plant of the company is but about fifty feet from the laboratory and the firemen through their efforts kept the blaze to the building in which it originated, otherwise the entire plant would have been destroyed.

After an hour's work the fire was completely subdued.

CHINESE UNABLE TO AGREE

Conference Between Northern And Southern Factious Ends

Washington, June 28.—Conferences at Shanghai, looking to the composing of differences between North and South China, have ended. Advices received in Washington say the delegates, after many weeks' consideration of the issues involved, found themselves unable to reach an agreement.

Renewal of hostilities between the two factions is not expected immediately, but it is assumed here that a period of armed neutrality will ensue between the north and south until another effort is made to settle the differences.

CROWN PRINCE SEES WAR 10 YEARS HENCE

London, June 28.—"After peace is signed I will return to Germany to live on my estates in Silesia and perform my duties as a land owner," said the former German Crown Prince in an interview last week at Wieringen, according to a Brussels dispath to the Daily Mirror.

The Prince is also quoted as declaring that "East Prussia and Silesia wil never consent to be governed by Poland. There will be another war in ten years."

WOULD SOFTEN PEACE

Southport, England, June 28.—The British Labor party conference yesterday adopted a resolution calling for the speedy admission of Germany to the League of Nations, and the immediate revision by the League of the "harsh provisions of the treaty which are not consistent with statements made on behalf of the Allied Governments when the armistice was made." There was only one dissenting vote.

The resolution, which was introduced by J. Ramsay MacDonald, also called upon the labor movement in conjunction with the Socialist Internationale to undertake a vigorous campaign in support of the policy eunciated in the resolution "as the first step toward the reconciliation of peoples and the inauguration of a new era of international co-operation and good will."

FOR STRIKING GIRLS

Alexandria Trades Council to Hold Meeting Monday Night in Their Behalf

The Alexandria Trades Council will hold a special meeting Tuesday night at 8 o'clock in the opera house for the purpose of arousing interest in the cause of the striking girls of the Western Union and Postal Telegraph Companies. The meeting will be an open one and the public invited to attend.

The question of having the government locate an army store here also will be discussed.

Announcement is made that it is the wish of the Trades Council that the Chamber of Commerce send representativs to this meeting.

A SHARP COMMAND

Paris, June 28.—The German peace delegation has been informed in a note from Premier Clemenceau that the German Government will be held strictly responsible for unofficial support of any movement against Polish authority in the territory given Poland in Posen and in East and West Prussia.

IN MEMORIAM

In loving memory of my dear husband, HOWARD DAVIS, who departed this life one year the 29th of June 1918.

He has gone from his dear ones, his dear wife and child,
Whom he willingly toiled for and loved as his life,
Oh, God! how mysterious and how strange are thy ways,
To take from us this loved one in the best of his days.
By his devoted wife, Rose Davis
154-1p.

In loving memory of my dear son, Howard Davis, who departed this life one year June 29th, 1918.

One year has passed, my heart still sore,
As time goes on, I miss him more
His loving smile and tender face
No one can fill his vacant place
The loss was bitter, the pain severe.
To part with one I loved so dear.
The trial was hard, I'll not complain,
Friends may think the wound is healed,
But they little know the sorrow
That lies within our hearts concealed.
By his devoted mother and father
154-1p.

In sad but loving remembrance of my dear mother, Susan Trunnell who died one year ago today, June 28, 1918.

One year has passed away dear mother,
Since God called to his home the one that I loved so well,
And tried so hard to save,
But God knew best that she was tired and weary,
So took her home to rest.
Hover around me dear mother, for I am sad and lonely without you.
By her loving daughter,
154-1p. Annie M. Henry.

There will be a call communication of Andrew Jackson Lodge No. 120 A. F. and A. M. at the Masonic Temple, Tuesday evening July 1st, at 7.30 to confer the E. A. and F. C. degrees. All master masons are invited. By order of the Worshipful Master.

PLANS FOR SIGNING THE PEACE TREATY

Signatures May Be Affixed to Pact This Afternoon

"BIG FOUR" SPEED UP

President Wilson Expected to Leave Brest for the United States Sunday.

Paris, June 28.— Plans practically were completed last for signing the peace treaty at 3 o'clock this afternoon.

The new German peace delegates, Dr. Hermann Mueller and Dr. Bell, have passed through Coblenz on their way here, and were expected to arrive in Paris last night.

In some French official circles it is stated that it will be impossible to sign the pact before Monday.

If the signing does take place today, President Wilson will leave for Brest at 9.30 p. m., and will sail from Brest Sunday.

There is talk in American peace quarters that if the signing date is again postponed the President will leave tonight, anyway, charging Secretary Lansing with the duty of signing the document.

Premier Lloyd George is said to have inquired of Mr. Wilson if he objected to having the ceremony held on Sunday. The President is understood to be against this if it can be avoided, but in case all others agree he would stay over till Sunday and sit in at the signing.

Meanwhile the "Big Four" are doing all in their power to speed up the completion of the Austria, Hungarian, Turkish and Bulgarian treaties before Mr. Wilson departs. The pacts with Hungary and Turkey are said to be virtually finished, but are held in abeyance until, in the words of one American official, "someone turns up to sign them."

KICKING AGAINST GOADS

As the halter draws Germany pulls back. She can do nothing but conform, but she is evidently determined not to conform with good grace, to draw out the proceedings and, yielding, to make faces.

As the Baltimore News says, "signs are increasing daily that the Germans propose to sign the treaty with their tongues in their cheeks. What possible relief they expect to find in such a course must be left to German psychology. Of all peoples the Germans have most to lose by maintaining an attitude that accentuates bitterness, already acute enough in all conscience. Dependent upon the Allies for food, for raw material with which to work; dependent upon them, maybe, for protection from outbreaks on their own soil, they are setting about making the path to peace as thorny as possible, ignoring the fact that they will be the chief sufferers.

"If the rest of the world looks on with amazement and contempt, secure in the knowledge that the German will sign; that he will settle; that he will fulfill the peace terms as they are set forth. it is because it has learned to know the German and also knows the strength of the determination to make him pay. He will whine, threaten and bluster. But he will yield to superior force. What we are witnessing is another demonstration that in making peace, as in making war, good faith is not a German virtue"

MAURY'S FORECAST

When the war began Norfolk claimed 90,000 people. Now its population is estimated at 250,000. Portsmouth, just across the river, then, had about 30,000; now, according to the local estimate, 80,000, and the trading territory surrounding the Norfolk-Portsmouth section, or the Hampton Roads district, so-called, is estmiated to have from 500,000 to 600,000 people.

The Manufacturers' Record suggests that "in this amazing increase in population, based on the enormous expansion of business activities and the many millions of money spent by the Government for the development of its warehousing facilities and kindred war activities, is found the fulfilment of the scientific prophecies made by the "pathfinder of the sea," Commodore Maury, long before the Civil War, that the advantages of the Hampton Roads district would of necessity compel the building of a great city at this point. The rapid growth of Norfolk, which has changed from a comparatively quiet, easy going city of less than 100,000 people into one of the most bustling centers of activity in America, is merely typical of what is to take place at many points along the South Atlantic and Gulf Coasts when the advantages of these ports have become fully known.

WANT A SANE FOURTH

"Give us a noiseless Fourth of July." This is the kind of Independence Day celebration that the Veterans of Foreign Wars bearing wound stripes for injuries received in the Argonne Forest, now in Washington want. One of the number said last night:

" We want to see a great big hip hip hurrah celebration, but without fire crackers and senseless noise. You'll find most of the A. E. F., feel the same way if it's only to keep several thousand kids from walking around or staying in bed July 5 with wound stripes. The movement ought to start in Washington."

It was also added "that the noiseless Congress wouldn't be a bad idea. After hearing some of those Capitol fellows wrap themselves around the flag and deliver speeches for home consumption about patriotism and the sacrifices of soldiers and then not move a hand to increase the injured soldier's vocational allowance, has changed the idea about what Congress thinks of the soldier."

It is suggested above that the movement should start in Washington. It may be stated that the movement for a safe nad sane celebration of the Fourth of July was made in Alexandria more than a quarter of a century ago, and it has since been adopetd in most of the large cities. Philadelphia and Baltimore are planning to eliminate the explosion feature on Independence Day.

The laws forbidding the sale or use of explosives in Alexandria on any day in the calendar are clear, and the Mayor has called the attention of the police to the standing order to enforce the same.

CHANGE IN TEMPERATURE

The cloudy of yesterday forenoon was followed in the afternoon by a torrential downpour of rain, accompanied by thunder and lightning. While the storm was by no means severe in Alexandria, it wrought havoc in other places, and the decided drop in temperature is indcative of hail somewhere.

The weather forecast yesterday stated that there would be "no decided change in temperature," but early last night the northeast wind brought much lower temperature, and early this moning conditions were chilly.

Lightning, which was accompanied by a rainfall of 1.48 inches, yesterday afternoon, created havoc in the downtown section of Washington.

Many trees were blown down and others were splintered by lightning.

The work shop of the Capital Traction Company at Thirty-second and M streets was struck by lightning and damaged. A horse was killed by lightning. Lightning also struck Liberty Hut. The flag pole and much of the roofing was torn from the building. A traveling electric crane at the Navy Yard was demolished by lightning.

MARITAL INFELICIES

The number of women, white and colored, who appear in the Alexandria Police Court and lodge charges against their husbands is increasing all the time. The week closing tonight has been a banner week. Some allege abandonment and non-support, others cruel treatment, while a few prefer charges of assault. Most of these cases were dropped from the blotter, as the parties generally young people, when they face each other in court show a disposition to withdraw the charges.

It is a noticeable fact that in a majority of the cases, when the complainants are questioned closely, it becomes apparent that it is "six of one and half a dozen of the other."

It is difficult to make young married people comprehend that they wed each other for "better or worse."

While the man may have one of the best type of woman for a helpmeet, he must not imagine she should necessarily be an angel, nor should the weaker vessel expect that her liege lord to be a Magnus Apolo with the patience of Job.

Out of every ten marriages that occur in the United States one ends in divorce. Such are the startling figures that are to be gleaned from a ecently issued bulletin by the United States census bureau, a reading of which may throw some light upon teh old question, "Is Marriage a Failure?"

THE PROPER COURSE

Information of Priceless Value to Every Alexandria Citizen

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Alexandria citizen who used them and who publicly tells of the benefit derived?

Guy Pettit, railroad engineer, 114 Commerce St., Alexandria, says: "I have used Doan's Kidney Pills off and on for a number of years and they have done me so much good I wouldn't be without them. I usually carry a box of Doan's with me because my kidneys are apt to get out of order. This is from the jarring of the engine. However I only have to use a few of Doan's Kidney Pills and I am not bothered any more."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Pettit had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

WILSON WILL NOT BUDGE

Believes Great Bulk of American People Affirm His Action

Paris, June 28.—President Wilson does not propose to budge an inch before the opposition to the league of nations.

This was the impression gained by the correspondents when the President received them yesterday afternoon, talking to them for 45 minutes.

Woodrow Wilson will go before Congress in his fighting togs, and he will keep them on until the treaty is ratified; that conclusion was inescapable after what he said at this conference.

As a matter of fact, the President is thoroughly convinced that the great bulk of American public opinion is with him. He does not believe that more than a handful of men support the Fall resolution. He holds that the adoption of that measure would incur the ill-will of the entire world toward America.

The President, indeed, conveyed the impression that he believes the peace treaty with Germany to be wonderful and liberal, and more consistent with his fourteen points than he had ever dreamed of being able to make it, in view of the mass of obstacles he had to overcome.

As for the proposal for a military agreement whereby the United States, like Great Britain, pledges herself to come to the aid of France in case of a future attack on that country, Mr. Wilson regarded this proposition as entirely just and fair, despite the fact that it conflicts with the principles of the league of nations in that it places upon America not upon the league, the task of deciding whether such attack is provoked or unprovoked.

Mr. Wilson appeared to leave the inference that he favors American mandates both for Constantinople and Armenia, but that he will leave this whole matter exclusively to the decision of Congress and the American people.

With regard to the Irish problem, it was plain that the President is not in a position at present to foresee or to favor any particular solution.

BOY FINDS $16,000 6

Petersburg, Va., June 28.—Cecil Rodgers, son of a teacher at the Colored Virginia Normal and Industrial Institute in Ettrick, while pasturing cows in the rear of the institution yesterday made the startling discovery that he had found a part of the stolen property taken from the store of W. T. Sherman on Sunday night, June 22, when Sherman's store was broken into and his safe blown and its contents stolen.

A closer search by Rodgers was made, and the drawers of the safe found. Sherman was at once notified, and in a secluded spot nearly all the valuable papers taken from the safe by the thieves were found. They consisted of deeds of trust, mortgages, checks, notes and certificates of deposit in the local banks of Petersburg, amounting in all to the sum of $16,437.60. He located also the life and fire insurance policies carried by Sherman, a $3,200 certificate of deposit belonging to Sherman brother, a $400 certificate belonging to Benjamin Perkinson. No cash or United States bonds were found. Sherman estimates his loss in cash and United States bonds at $6,000.

BACK LIKE A BOARD? IT'S YOUR KIDNEYS

There's no use suffering from the awful agony of lame back. Don't wait till it "passes off." It only comes back. Find the cause and stop it. Diseased conditions of kidneys are usually indicated by stiff lame backs and other wrenching pains, which are nature's signals for help!

Here's the remedy. When you feel the first twinges of pain or experience any of these symptoms, get busy at once. Go to your druggist and get a box of the pure, original GOLD MEDAL Haarlem Oil Capsules, imported fresh every month from the laboratories in Haarlem, Holland. Pleasant and easy to take, they instantly attack the poisonous germs clogging your system and bring quick relief.

For over two hundred years they have been helping the sick. Why not try them? Sold everywhere by reliable druggists in sealed packages. Three sizes. Money back if they do not help you. Ask for "GOLD MEDAL" and be sure the name "GOLD MEDAL" is on the box.

KAISER WOULD RETURN

Plans to Leave For Germany, According to Stuttgart Report

Berlin, June 28.—Former Emperor William is planning to return to Germany before the Entente can demand his surrender from Holland, according to a Stuttgart dispatch to the Neue Berliner Zeitung. The dispatch states that the Dutch Government "throughly approves of his return, as the former Emperor is an unwelcome guest and his presence in Holland is increasing the problem before that country."

The following advertisement is appearing in newspapers in various part parts of unoccupied Germany, being a part of the campaign that is said to be going on throughout the country under the auspices of the officers' alliance:

"We have telegraphed the Holland Government as follows:

"The German officers' alliance, filed with gratitude for the hospitality afforded the German Kaiser by Holland in the name of millions of Germans, request the Government of the Netherlands to refuse to deliver the Kaiser to the Entente. We cannot now defend our former war lord with our bodies, but, we expect the magnanimity of the Dutch to spare us this final and most humiliating disgrace."

The advertisement is signed "The German Officers' Alliance." No papers appearing in the American occupied area have been permitted to print the advertisement, which is addressed "to all Germans."

The Hague, June 28.—Frederick William Hohenzollern, the former German Crown Prince, whose escape from Holland to Germany had been reported, still was at his residence on the Island of Wieringen, in the Zuder Zee, this morning, it was announced officially here this afternoon. The fact that the former Crown Prince was still at Wieringen was disclosed by an official investigation made by the Dutch Minister of the Interior.

London, June 28.—"After peace is signed I will return to Germany to live on my estates in Silesia and perform my duties as a landowner," said the former German Crown Prince in an interview last week at Wieringen, according to a Brussels dispatch to the Daily Mirror.

The Prince is also quoted as declaring that "East Prussia and Silesia will never consent to be governed by Poland. There will be another war in 10 years."

SCHEIDEMANN'S PLANS

Berlin, June 28.—The German Government headed by Phillipp Scheidemann had planned to refuse to sign the peace treaty and to permit the Allied troops to march into Germany as far as the Elbe, where it would be attacked by strong German forces, the Danzig correspondent of the Tageblatt declares in a dispatch describing the details of a secret plan to create a separate state in northeastern Germany.

The plan was disclosed, it is added, when various geenrals interested had a conference with the Government leaders at Weimar General Groene, at pesent the chief commande, it is declared, was the first to decide to abandon the plan. Mathias Erzberger, of the German armistice commission, and Herr Hoersing, the commissioner for Upper Silesia, also were involved. Gustav Noske, the Minister of Defense, the correspondent asserts, had a difficult task in persuading Erzberger, to give up the plan. The Government, it is declared, feared that Hoersing, instead of operating against the Poles with the troops under his command, would turn about and march on Berlin, in an attempt to re-establish the former Emperor on the throne

The Good Will of an Army

The written and spoken word of American Army men, at home and abroad, has given the very name of Dodge Brothers Motor Car a new and a stirring significance.

THE VOLUNTEERS OF AMERICA

Under the Leadership of

GENERAL AND MRS. BALLINGTON BOOTH

Dodge Automobile Company,
Detroit, Michigan. May 12, 1919.
Gentlemen:

Several times while traveling through France and Germany I was inspired to exclaim, "I really must write to the Dodge Company, when I get home and tell them what I think of their car". Now, that I am home that intention has not weakened. I have spent the whole of this winter in France and Germany amid the mud and rain and shell torn roads of the battle front, and later over the steep mountains and through the narrow gorges between the Luxenberg and the Rhine.

General Pershing gave me for my use while I served the A. E. F. a Dodge car. With my little company of entertainers I was enabled to go to many of the boys in isolated spots who had no transportation to send for me and would have gone without entertainments had I not had my own car. We traveled hundreds of miles, some times over almost impassible roads. We scaled mountains, where at every minute we feared our little car might balk at further pressure. We never had a moment's trouble. I can say most emphatically that the Dodge gave splendid service and held out where we had found other cars disabled by the road side.

When my service with the Army was through and I had to return the car to them I felt as if I was parting with a personal friend and wished that it could run me down to Brest and be taken aboard the transport and sail for home with me.

From what I have heard from many sources I believe that others have had just as successful experiences with the Dodge at the front as we have had.

Believe me,
Very cordially yours,
(Signed) MAUD B. BOOTH.

Reo

Speed Is the Prime Requisite

WE USED TO THINK that load carrying capacity was the one desideratum in a motor truck.

WE BELIEVED that if the vehicle would carry enough tons per load, a snail's pace would do.

BUT EXPERIENCE taught us that the only time a motor truck was more economical than horses was when it was moving.

AND GRADUALLY we came to realize that the faster it moved the greater was its economy, its efficiency, and its all-round superiority over the horse.

NOW WE KNOW that a speedy one-tone "Speed Wagon may carry more tons in a day than a slow moving five-ton truck—in many kinds of work frequently does so.

THAT IS THE REASON for the Reo "Speed Wagon"—the forerunner of its type, and the one they are all patterned after.

THE "SPEED WAGON" makes faster time over a given route—be it on city pavements, country roads or just mountain trails.

IT MAKES MORE TRIPS per day—and if the goods are to be delivered at several points and in several directions from a center, the saving in time, in fuel and in tires is tremendous.

SPEED IS POSSIBLE because this Reo is mounted on pneumatic tires.

THEY PROTECT THE CHASSIS and load against road shocks and conserve power—therefore conserve fuel.

COST IS LESS PER TON MILE—We can show you figures galore to prove that beyond question.

ELECTRIC STARTER with which this Reo is also equipped—the pioneer in that regard, too—conserves energy of the driver and adds to the life of the motor.

THE ELECTRIC LIGHTS also contribute greatly to the efficiency of this Reo—they make speed safe in night driving.

NEED WE ADD that all patrons appreciate that kind of service that is most speedily rendered?

SPEED IS THE PRIME requisite in a motor truck—the Reo engineers were the first to realize that fact, the first to build that quality into a motor truck.

AND JUST BECAUSE this "Speed Wagon" was the first—had been several years in use before other makers awoke to the truth—this Reo is the safest buy, embodying as it does that extra experience.

American Efficiency Ended the War

Working with precision, certainty, and relentless energy, American business men, turned warriors, gave a demonstration of efficiency never to be forgotten.

They learned their efficiency in American corporations—learned to make sure they were right, then go "full speed ahead." For that is the spirit of American business—that, for instance, is how corporations buy their tires.

Take the Iten Biscuit Co., in Omaha, for example: Out of a thousand Diamond Tires used in 1918, 995 made marks between 7,200 and 18,000 miles.

There's an example of American efficiency for you—efficiency in the production of big mileage tires at a reasonable price, and efficiency in knowing how to buy big money's worth.

DR. WILKINS FOUND GUILTY

Aged Wife Slayer Faces Death Penalty for Crime

Mineola, N. Y., June 28.—Dr. Walter Keene Wilkins was found guilty of first degree murder yesterday.

Dr. Wilkins received the jury's vedict without any evidence of emotion. When the talesmen filed in the aged defendant rose to his feet and leaned forward with an attitude of expectancy. During the last few hours of the jury's deliberation the crowd in the courtroom generally believed that the verdict would be "guilty." The defendant however, never appeared to relinquish his confident air.

Following the reading of the verdict by the foreman and their suggestion that clemency be exercised, Justice Manning thanked them for their faithful service.

"The defendant has been found guilty of murder in the first degree and there is only one sentence that I can impose," Justice Manning said. "I am sorry I cannot comply with your requests. Any clemency that may be given will have to come from the governor."

The jury was then dismissed and Dr. Wilkins called before the clerk of the court to give the customary details as to his personal history. Sentence will be imposed at 10 a. m. Tuesday, Justice Manning announced.

Attorney Charles Wysong, who defended Dr. Wilkins, announced that steps to secure a new trial would be taken immediately. If the Court of Appeals refuses to act the case will be carried to the governor, Wysong stated.

Dr. Wilkins was accused of having killed his wife at their home in Long Beach, N. Y., last February by beating her to death with a hammer. He declared the killing was done by a burglar.

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

TWO FIREMEN KILLED

Petersburg, Va., June 28.—George Thompson and Floyd Harrison, members of the Camp Lee fire department, were instantly killed when their truck turned over at camp yesterday afternoon, while responding to a false alarm. Allen C. Lewis and George Fraker are dying of injuries received. Three others were seriously and one slightly injured.

The accident occurred when the truck, which was making 60 miles an hour, struck a slight excavation made by workmen repairing the concrete road. The truck shot a distance of more than 100 feet, turning over twice and catching the men beneath it.

TORNADO PICKS UP CAR

Calgary, Alta., June 28.—One child was killed, several persons were injured and a number of buildings demolished by a tornado which struck the outskirts of Empress, a small town near Medicine Hat, according to reports received here early yesterday. The twister picked up a railway car in which a family was living and carried it some distance. The car was smashed. A 5-year-old child was killed and other members of the family wounded.

DEFIANCE OF GERMANY

Washington Foresees Many Problems In Wake Of Signing Of Peace Treaty

Washington, June 28.—Official Washington makes no effort to conceal the fact that the recent behavior of Germany is the cause of serious concern and that the Allied and associated governments will not have solved the problems of peace in Europe by the mere act of signing the treaty of Versailles. It is believed that there are many more chapters yet to be written before that continent becomes tranquil.

First of all, it is now a demonstrated fact that Germany cannot be trusted to keep any agreement which she may make and, therefore cannot be relied upon to keep the pledges which she will give when she formally assents to the treaty of peace. Only constant pressure, backed by ever-present force, officials here believe, will compel Germany to discharge her obligations to her conquerors on the one hand, and her victims on the other.

This view of the situation is based upon a series of overt acts which Germany has committed, including the sinking of their fleet in Scapa Flow, in violation of the terms of the armistice, and the burning of the French flags, also in violation of that instrument, and upon the sullen spirit of defiance which is evident in the attitude of the whole people of the country.

Even now before the peace pact actually has been signed, there is clamor throughout Germany for its repudiation. German newspapers—one after another—are sneering at this treaty as "a scrap of paper" and are assuring the people that its burdensome terms will never be observed. It is being signed, some of these papers have said, as a means of preventing a further armed invasion of their country and as a means of breaking down the blockade. It is not being signed, they say, with the expectation that its more onerous provisions will ever be enforced.

The German Government itself gave notice to the Allies that it would sign unconditionally, but would have it known that there were certain terms imposed upon it which Germany could not carry out. This is just another way of saying that there are terms which Germany has no notion of carrying into effect, and the officials of this Government have not failed to so understand it.

NEW YORK WANTS THAW

Prosecutor Would Put Him on Trial on Old Charge

New York, June 28.—Papers intended to bring about the extradition of Harry K. Thaw from Pennsylvania to have him tried here on the indictment charging him with assaulting Frederick Gump, of Kansas City, in New York several years ago, were ordered pepared immediately by Distict Attorney Swann yesterday.

The prosecutor said he had been informed that Thaw, for the second time, ahd been allowed to leave a Philadelphia sanitarium, where he has been confined, to visit his mother in Pittsburgh.

Thaw was indicted here in January, 1917, on a charge of kidnapping and whipping Gump, a 19 year old youth, son of a Kansas trunk manufacturer. Young Gump, who was living in Long Beach, Calif., alleged he was enticed to New York by Thaw.

The Possibilities of a Porch

TO transform a porch into an airy outdoor living-room for the summer is very little trouble. You need only a few chairs, a table, and a porch light. The light—because evening is the time when the porch living-room is most appreciated.

EDISON MAZDA LAMPS

If you use EDISON MAZDA Lamps in your home, the porch light will cost you very little, for you know with EDISON MAZDA Lamps you can have three times as much light as you can with old style carbon lamps—and still *use no more electricity*.

Let us demonstrate the saving and convenience of these lamps to you.

STRIKERS OUST LEADER

Frisco Telephone Operators Charge Grasser With Favoring Employers

San Francisco, June 28.—Telephone operators and electrical workers on strike in the San Francisco Bay region at a meeting Wednesday night voted to accept no compromise offer from the telephone company and agreed hereafter to conduct the strike themselves and disregard their international president, L. C. Grasser.

A resolution adopted at the meeting charged "our representatives" with "playing into the hands of the company" and declared no good could come of further negotiations.

THEATRES

RICHMOND THEATRE

One of the most powerful dramas of the screen is "As a Man Thinks," the Four Star picture featuring Leah Baird and showing at the Richmond Theatre today. Directed by George Irving, from the original stage play by Augustus Thomas, the dean of American playwrights, tells the story of a man who sees no wrong in his flirtation, but harshly censures his wife for a less offense.

GRAND THEATRE

The Kaiser's U-boat commanders missed a fine chance at Balboa off the Southern California coast recently when Fred Kelsey, one of the players supporting Carmel Myers in "A Society Sensation" her latest Bluebird, put out to sea in a rowboat. Kelsey pulls a strong oar and so does the wind, herein rests the plot of this epic. It will be shown at the Grand Theater tonight. Also Fatty Arbuckle in "His Wife's Mistake."

INGOMAR THEATRE

"The Cry of the Weak" at the Ingomar Theatre tonight contains an enthrallingly interesting story with a big gripping and humanitarian theme.

J. P. STRONG

Prominent Real Estate Broker of Massachusetts

Boston, Aug. 25.—Says, "I have been in the real estate brokerage business for many years. I have suffered with loss of sleep, indigestion and nervousness, but since taking Argo-Phosphate I sleep better and eat without fear of distress, and can feel a great change in my system."

There is nothing in medical science that equals Argo-Phosphate in the treatment of indigestion, rheumatism, nervousness, kidney and liver ills. Sold by Richard Gibson and The Rexall Store.

Ouida Bergere the author, has emphasized in an entertaining manner, without "preaching" or "propaganda," the theory that a great number of the crimes which are committed today are based on vengeance against the harshness of society, and that many criminals if given the proper opportunity may be reclaimed.

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
